

Operating, Maintenance and Warranty Instructions

- **TO OPEN SHEET** Press open switch on sheeting system control panel /remote control until sheet has fully rolled over body to fixed side and is situated on top rail of vehicle.
- **TO CLOSE SHEET** Press close switch on sheeting system control panel / remote control until sheet has fully rolled back over body to open side.

IMPORTANT

- ALWAYS open sheet, where possible, before tipping to avoid the risk of a vacuum forming and centre pole being bent
- DO NOT open or close sheet while vehicle is moving or in high winds
- DO NOT operate system while tipping
- DO NOT travel with the sheet in the open position
- DO NOT operate the system if the load is above the height of the front and rear domes

MAINTENANCE

Inspect sheet daily, for wear or damage and repair or replace if required

Check oil level monthly, which should be 50mm below filler point - DO NOT OVERFILL

Change oil every 24 months: Oil type TOTAL AZOLLA Z S 68

Check all hose connections and fittings, for tension and leaks

TROUBLE SHOOTING

If the system is not operating correctly: Check fuse in Powerpack

Check 150 amp fuse in Battery Box

Check for obstructions on top of the body stopping the sheeting system operating

Check that there is no damage to the centre and side poles

Check that the oil level is correct
